WORK EXPERIENCE

2017—Present

The Art Department, The City College of New York
Writing About Art
Adjunct Lecturer

- Instruct senior college undergraduate students in conducting research, writing in-depth scholarly analyses of art using established theoretical frameworks in the field, and conveying their ideas using formal English.
- Develop and manage class syllabus, lectures, activities, in-class discussions, and assignments.
- Grade student performance and achievement based on participation and examination.
- Advise students on curriculum-related material.
- Implement Open Educational Resources (OER) and Zero Textbook Cost (ZTC) in designing course content.
- Created an interactive web app that teaches a step-by-step process of writing a research paper using Adobe Captivate and integrated it into the class curriculum by publishing it on Blackboard as a SCORM packet.

2017—Present

Center for Excellence in Teaching and Learning (CETL)
The City College of New York
Instructional Designer

- Collaborate with faculty in ensuring that their course content matches established objectives.
- Mentor faculty in adopting collaborative, inclusive, accessible, and active learning practices and related pedagogy.
- Assist faculty with Blackboard, WordPress, and Academic Commons.
- Mentor faculty in creating and designing handouts, instructional videos, and other training material.
- Conduct workshops on Blackboard functionality.
- Edit and publish information on the CETL website.

Fall 2019

Open Educational Resources (OER)
The City College of New York
Fellow

- Support faculty during one-on-one sessions in customizing their curriculum using resources that reside in the public domain or are released under an open license to better align with learner needs and interests.
- Conduct OER workshops on Backward Design and Accessibility.
- Conduct outreach and design print and digital promotional material.
